

Lenni Texas Community Bank — Exploratory Data Analysis

Generated: 2026-06-08 08:19

Data: FFIEC Call Report XBRL — Texas banks, 2025+

Reference: lenni_contenxt.txt (Lenni / Convey by Lenni)

PURPOSE

Support Lenni go-to-market: Texas banks in 500M-2B, loan portfolio profiling (CRE, C&I, consumer), and one-bank-per-market sales planning.

JOINED TABLES (exports/)

- texas_master_joined.csv — bank × quarter, wide metrics
- texas_bank_profiles_latest.csv — latest quarter per bank
- texas_loans_joined_long.csv — loan lines + institution fields

JOIN KEYS: id_rssd + reporting_period

AMOUNTS: USD (parsed from XBRL fact values).

Analysis index (25 slices)

- 1 Asset size distribution vs Lenni ICP band
- 2 ICP fit (in/out of 500M-2B)
- 3 Call Report form type (031 vs 041)
- 4 Aggregate loan categories – ICP banks
- 5 Loan-to-asset ratio
- 6 Top cities by bank count (market planning)
- 7 Quarterly median assets & loans
- 8 Top 15 ICP banks by loan portfolio
- 9 C&I vs CRE scatter – ICP
- 10 Allowance / loans ratio
- 11 90+ day past-due stress proxy
- 12 Consumer vs commercial orientation
- 13 Quarter-over-quarter loan growth
- 14 ICP bank count by period
- 15 Asset band TAM sizing
- 16 Median loan-mix ratios – ICP
- 17 Filing panel size by quarter
- 18 CRE concentration – ICP
- 19 Loan size by form type (boxplot)
- 20 Top ICP cities
- 21 Summary statistics table
- 22 ICP prospect CSV export
- 23 Loan category heatmap by asset band
- 24 Asset growth QoQ
- 25 Low-consumer-share banks (portfolio lenders)

Joined table schema

texas_master_joined.csv columns:

Institution: id_rssd, name, city, state, filing_type, form_size, has_filed

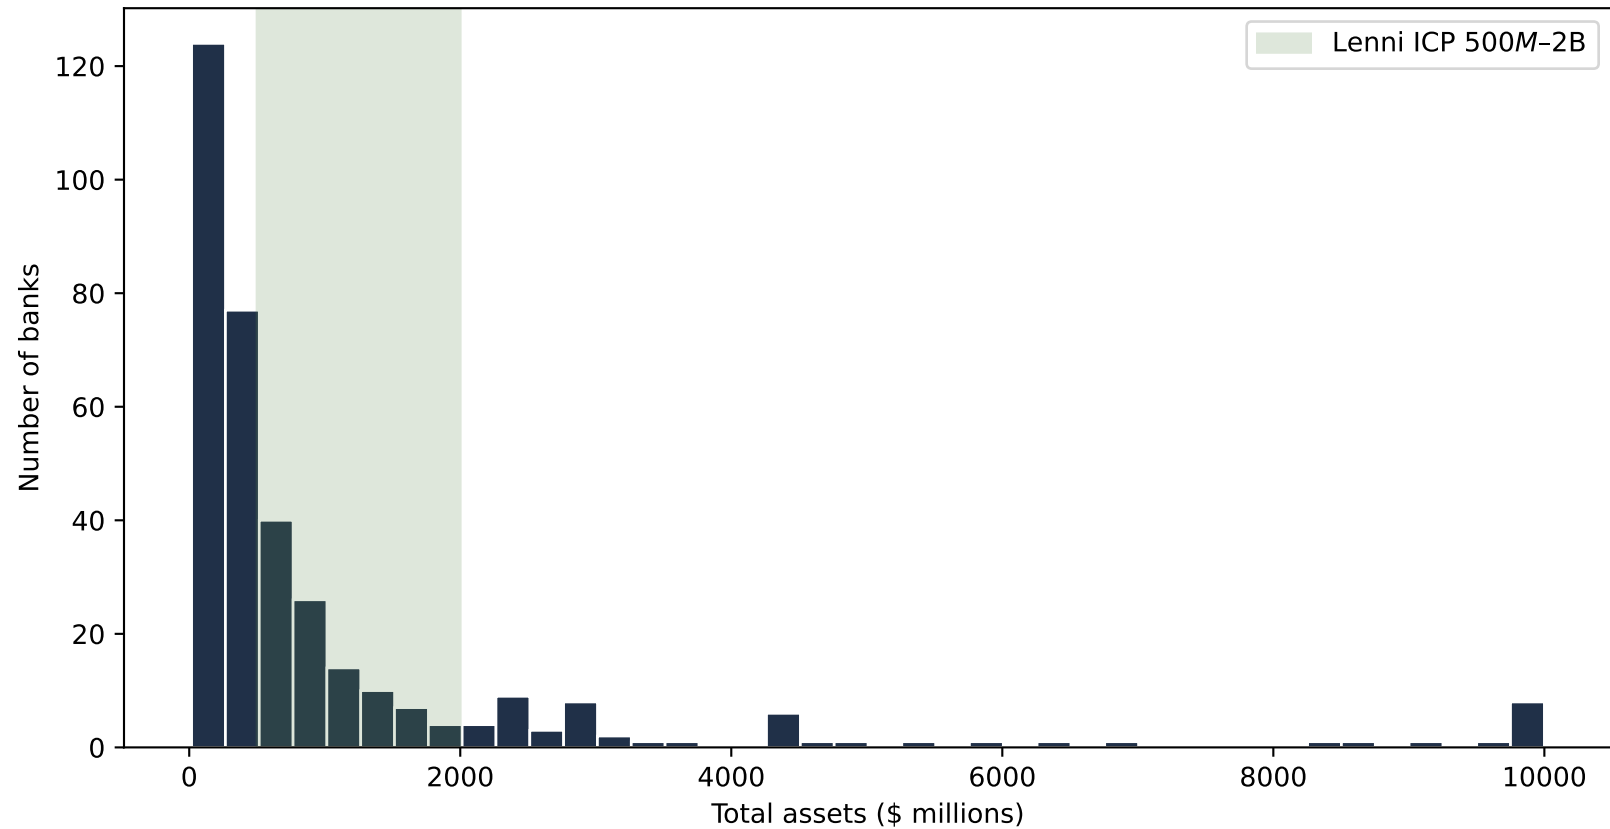

Filing: retrieved_at, file_path, sha256, file_size_bytes

Metrics (USD): total_assets (RCON2170), total_loans_gross (RCON2122),
ci_loans (RCON1766), cre_proxy_total, allowance_loan_losses, credit_card_plans,
other_consumer_loans, residential_1_4_family, past_due_90_plus, ...

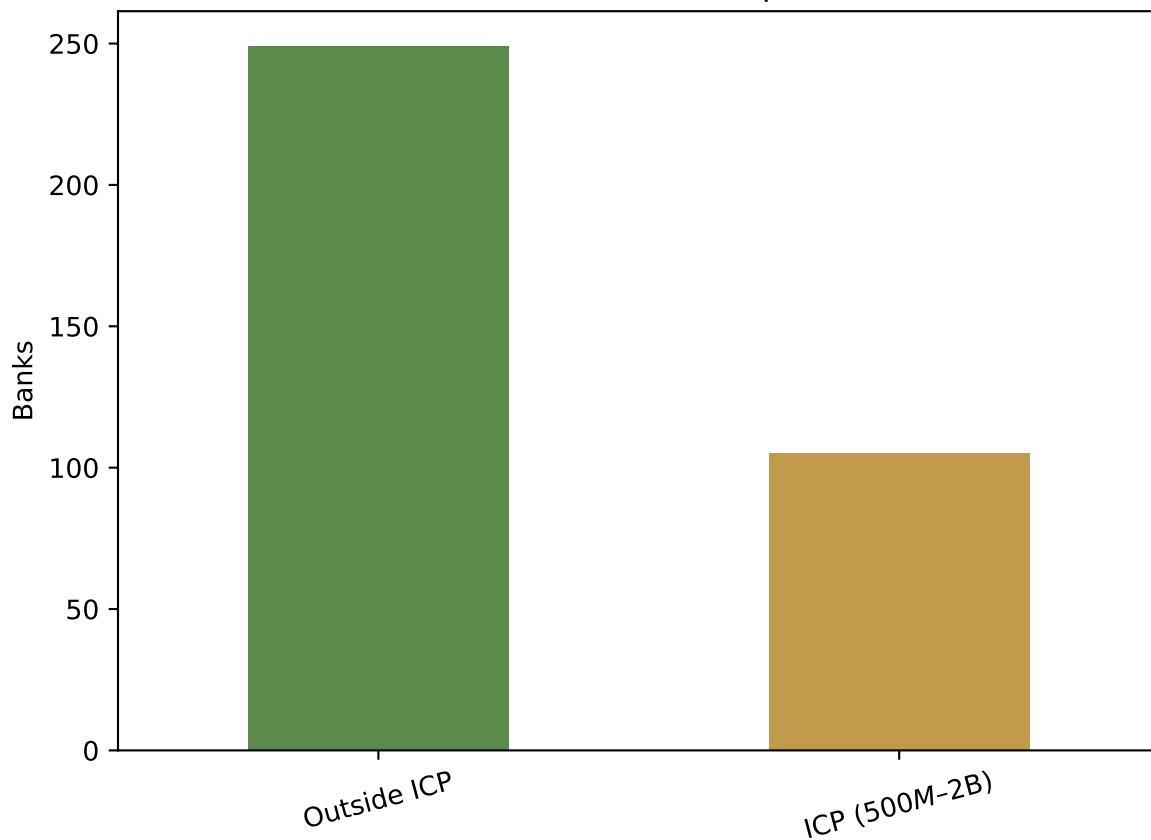

Derived: loan_to_asset_ratio, allowance_ratio, cre_to_loans, ci_to_loans,
consumer_to_loans, icp_fit

JOIN: institutions → filings → loan summary pivot + XBRL balance-sheet pivot

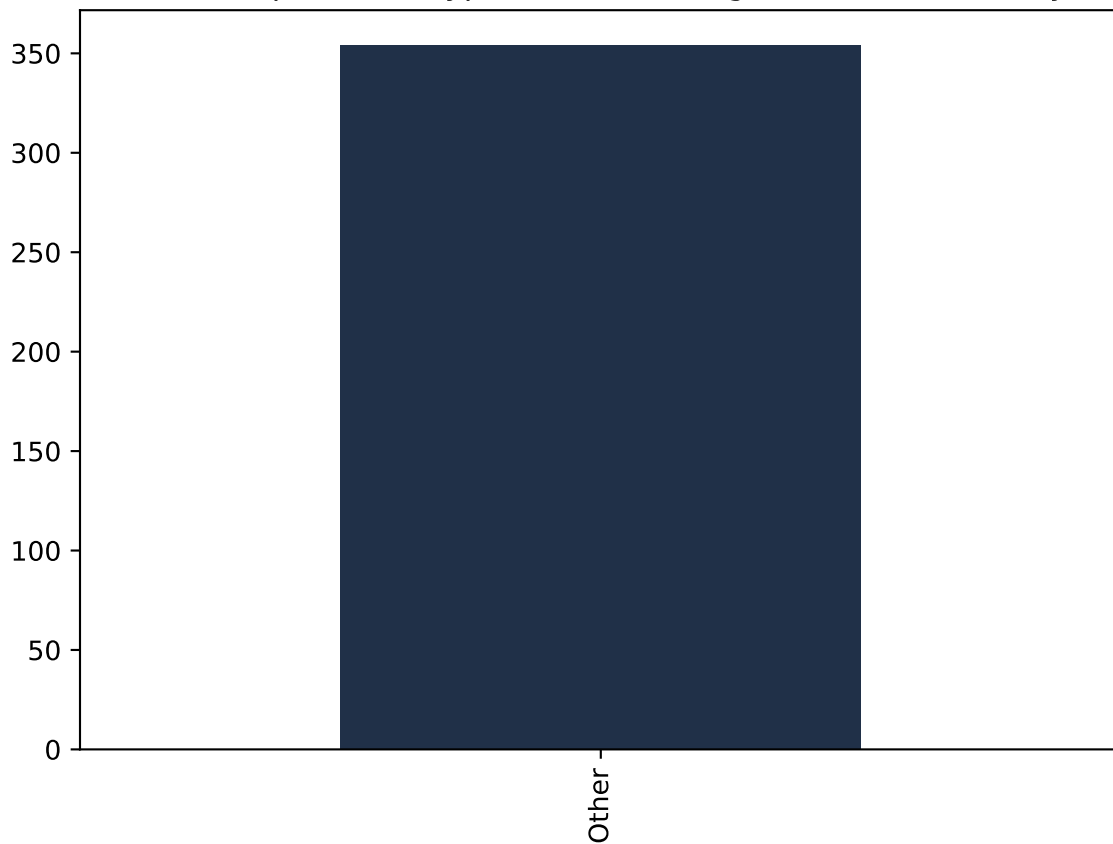

1. Asset size distribution — Texas community banks (latest quarter)

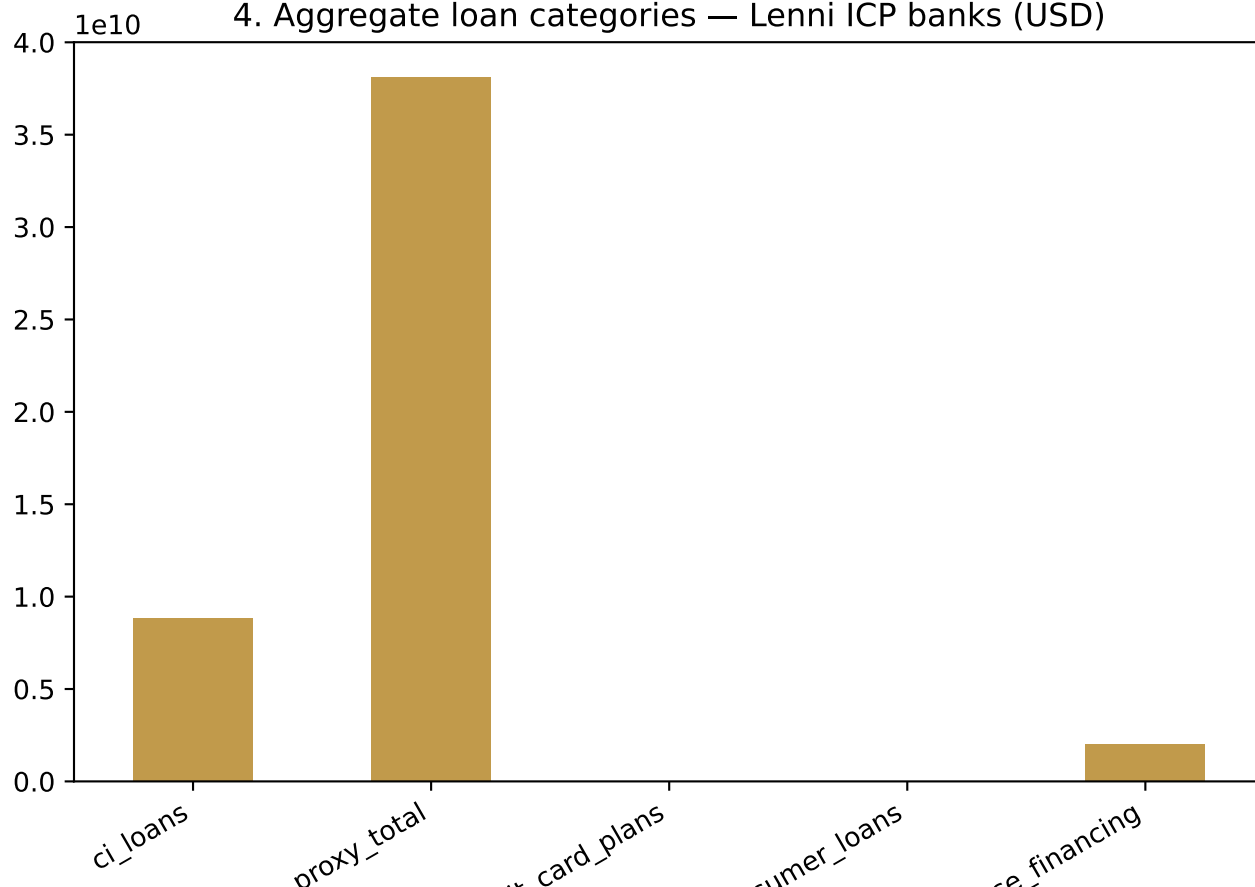

2. Lenni ICP fit (latest quarter)

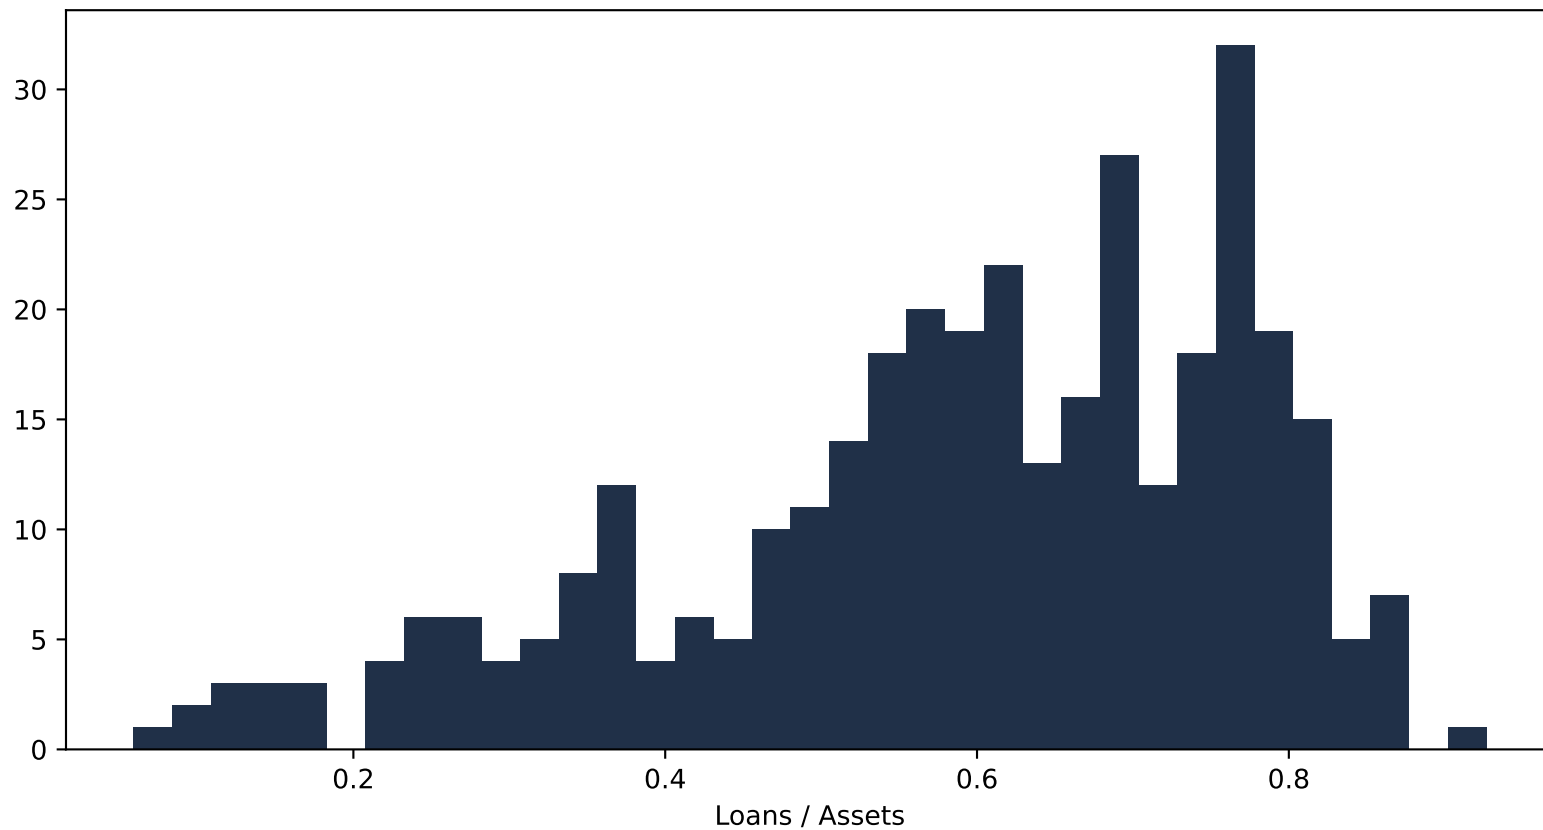

3. Call Report form type (051=031 larger, 041=community)

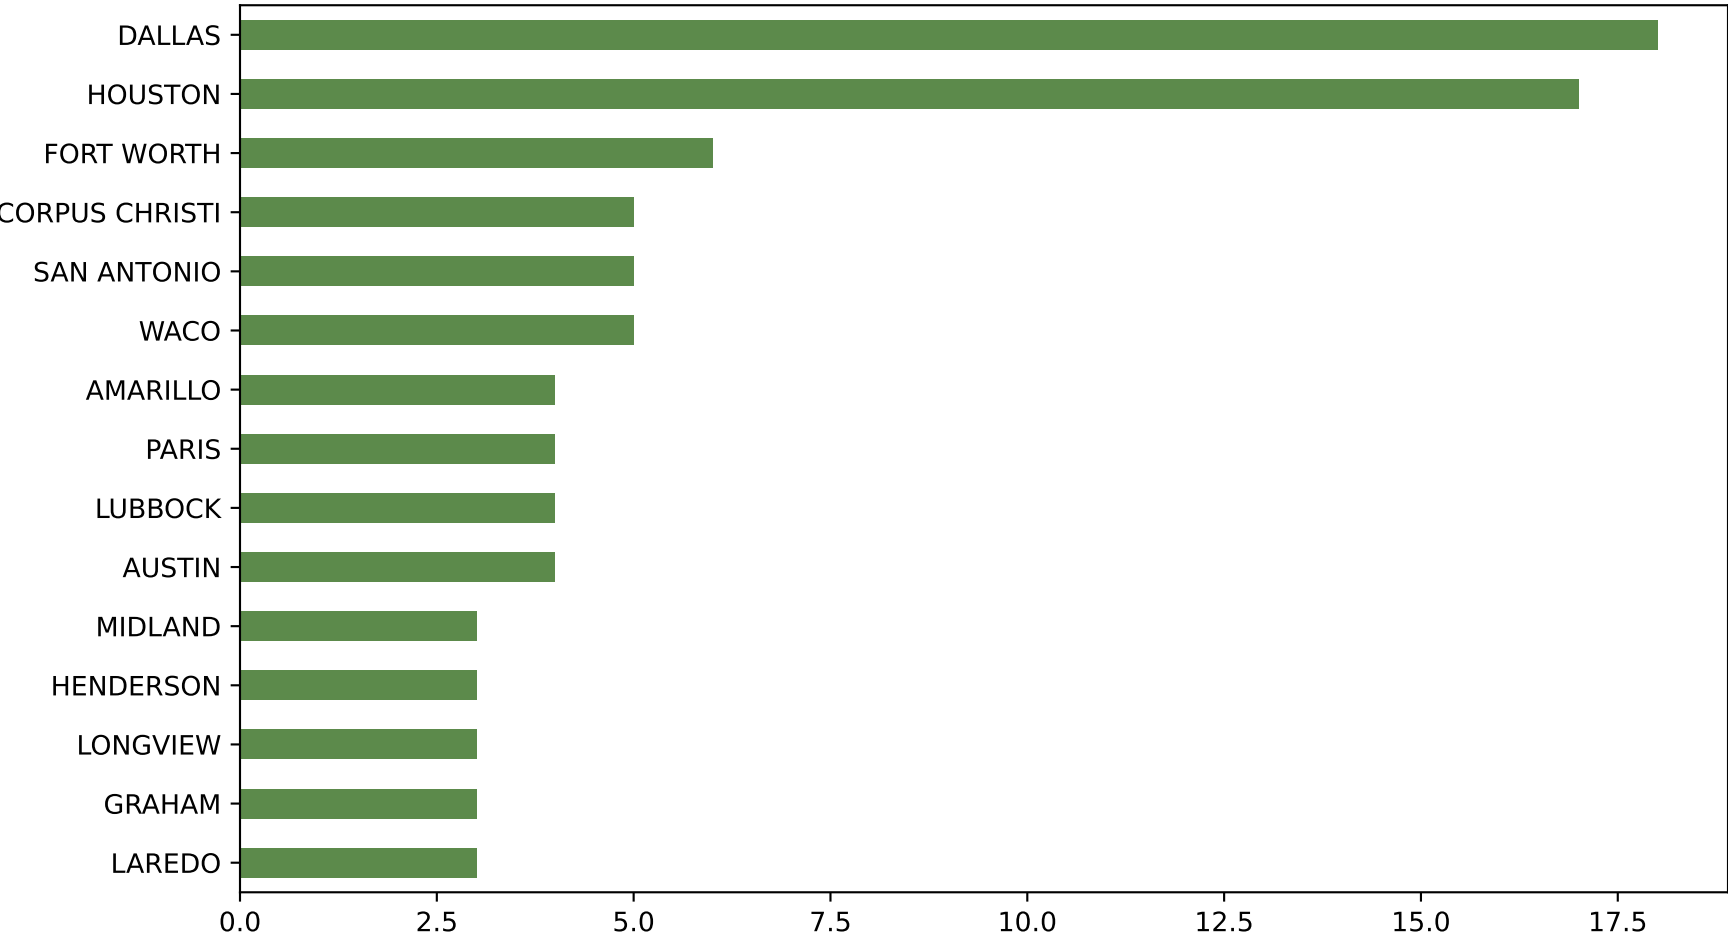

4. Aggregate loan categories — Lenni ICP banks (USD)

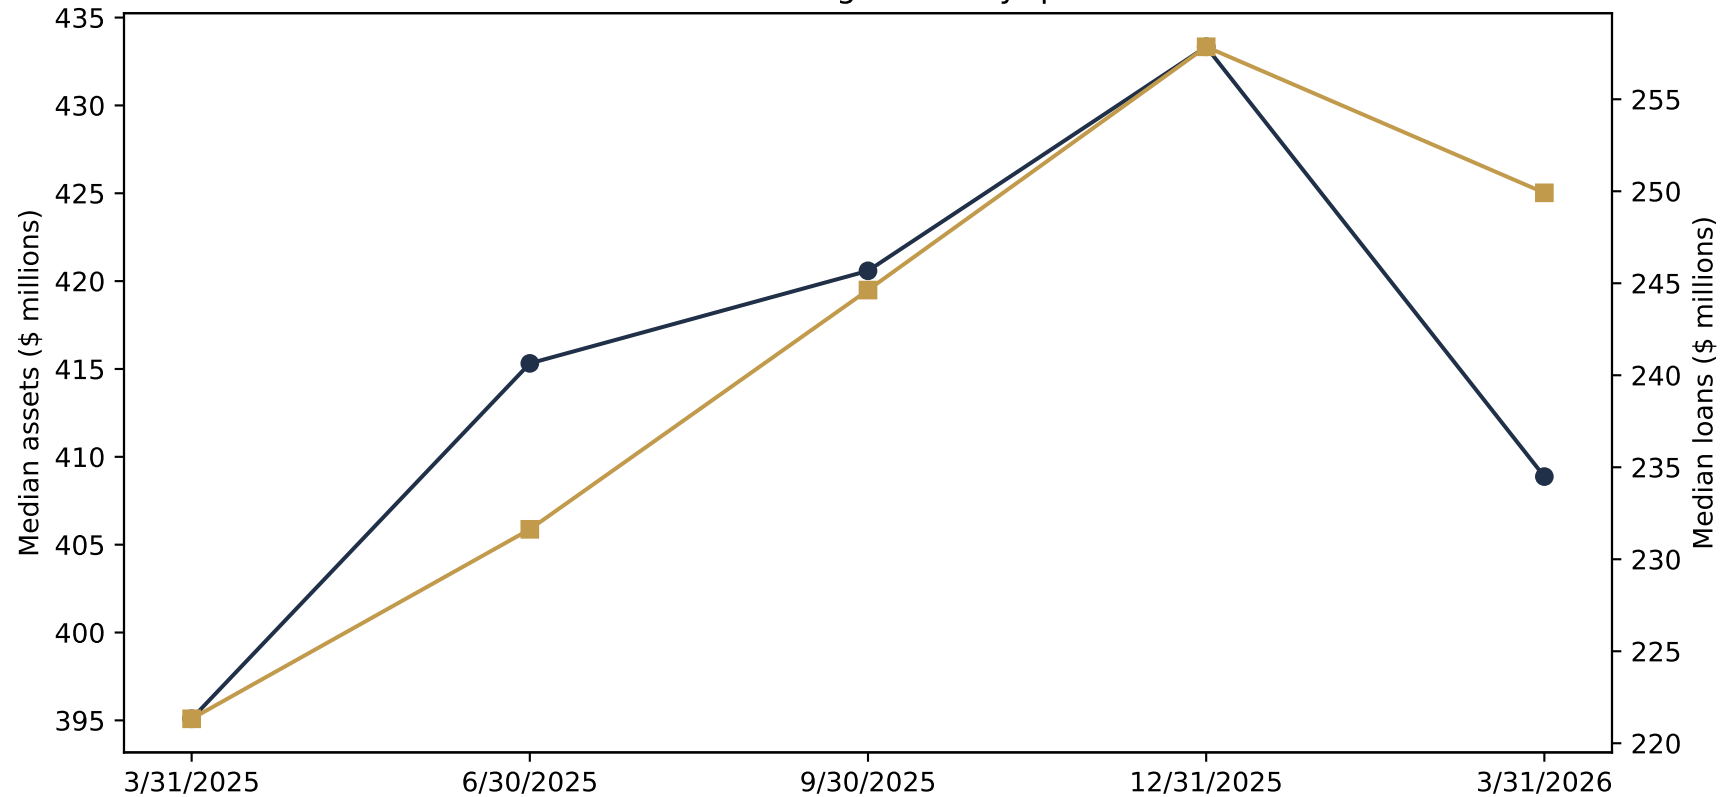

5. Loan-to-asset ratio distribution

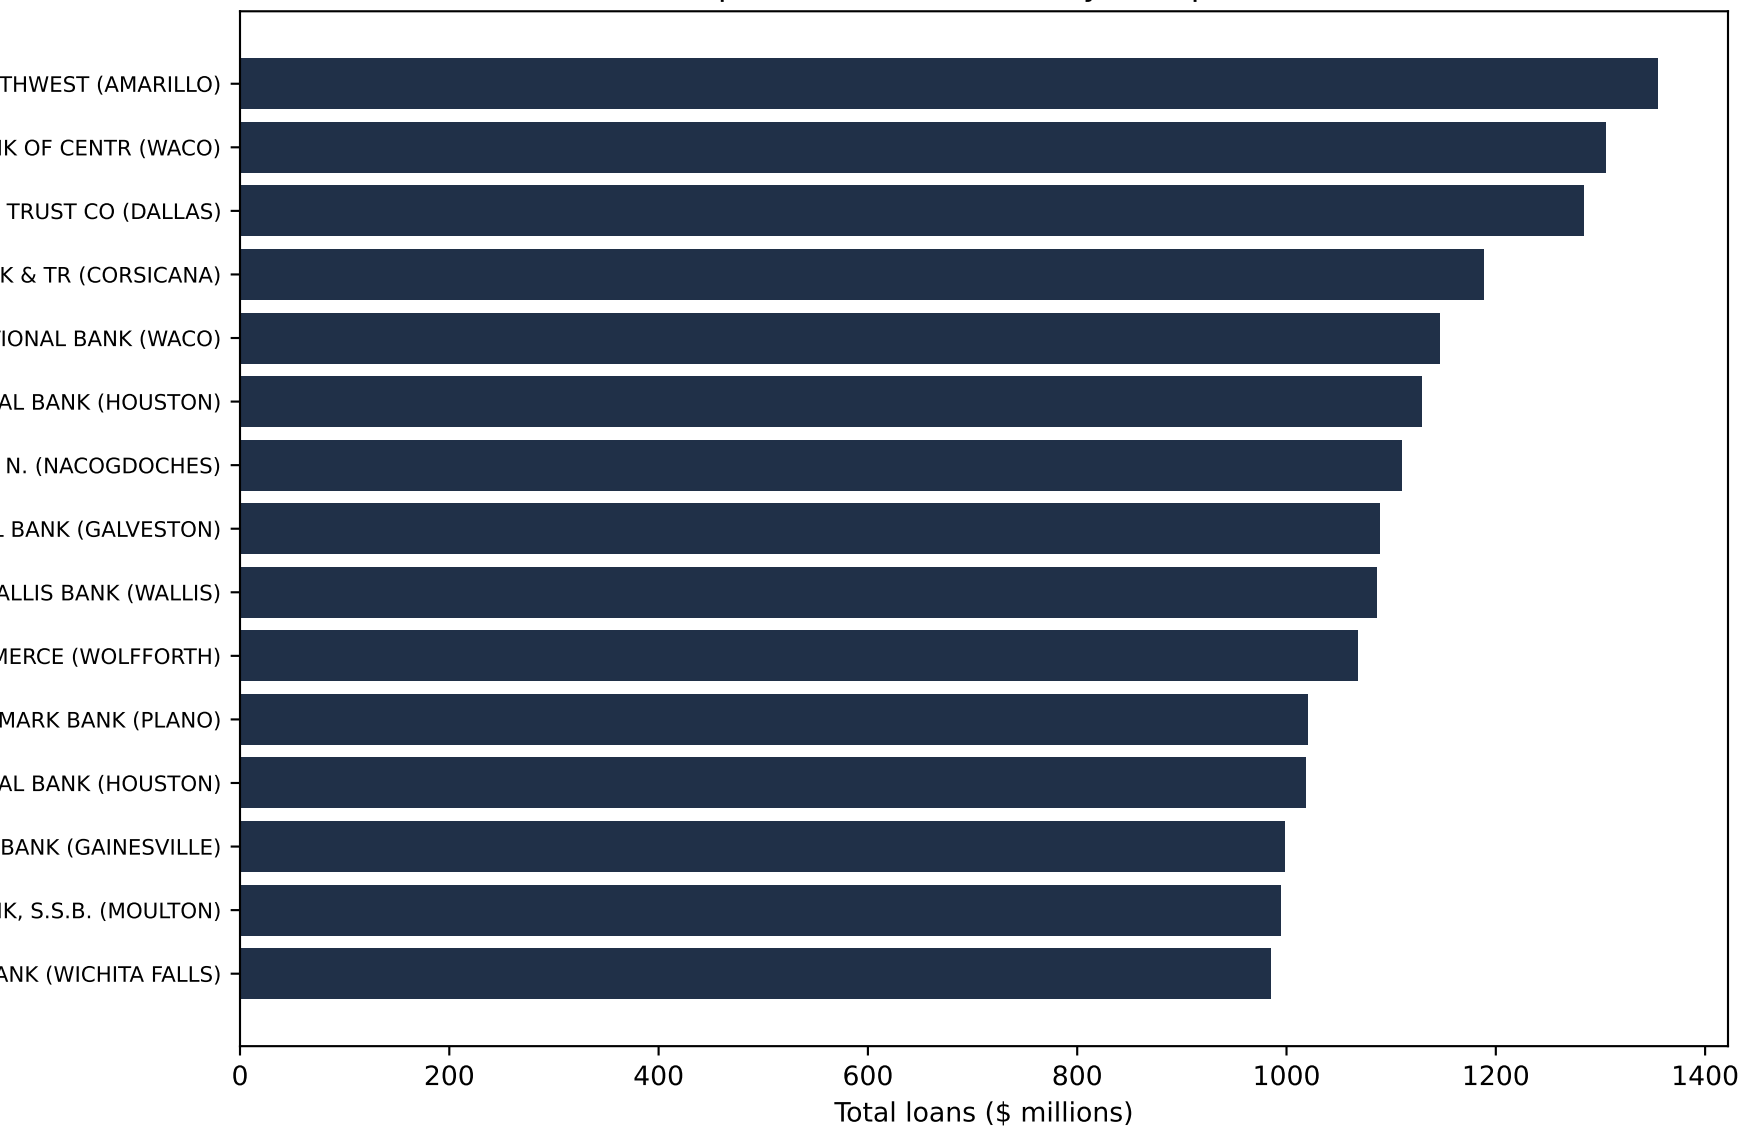

6. Top 15 cities by bank count

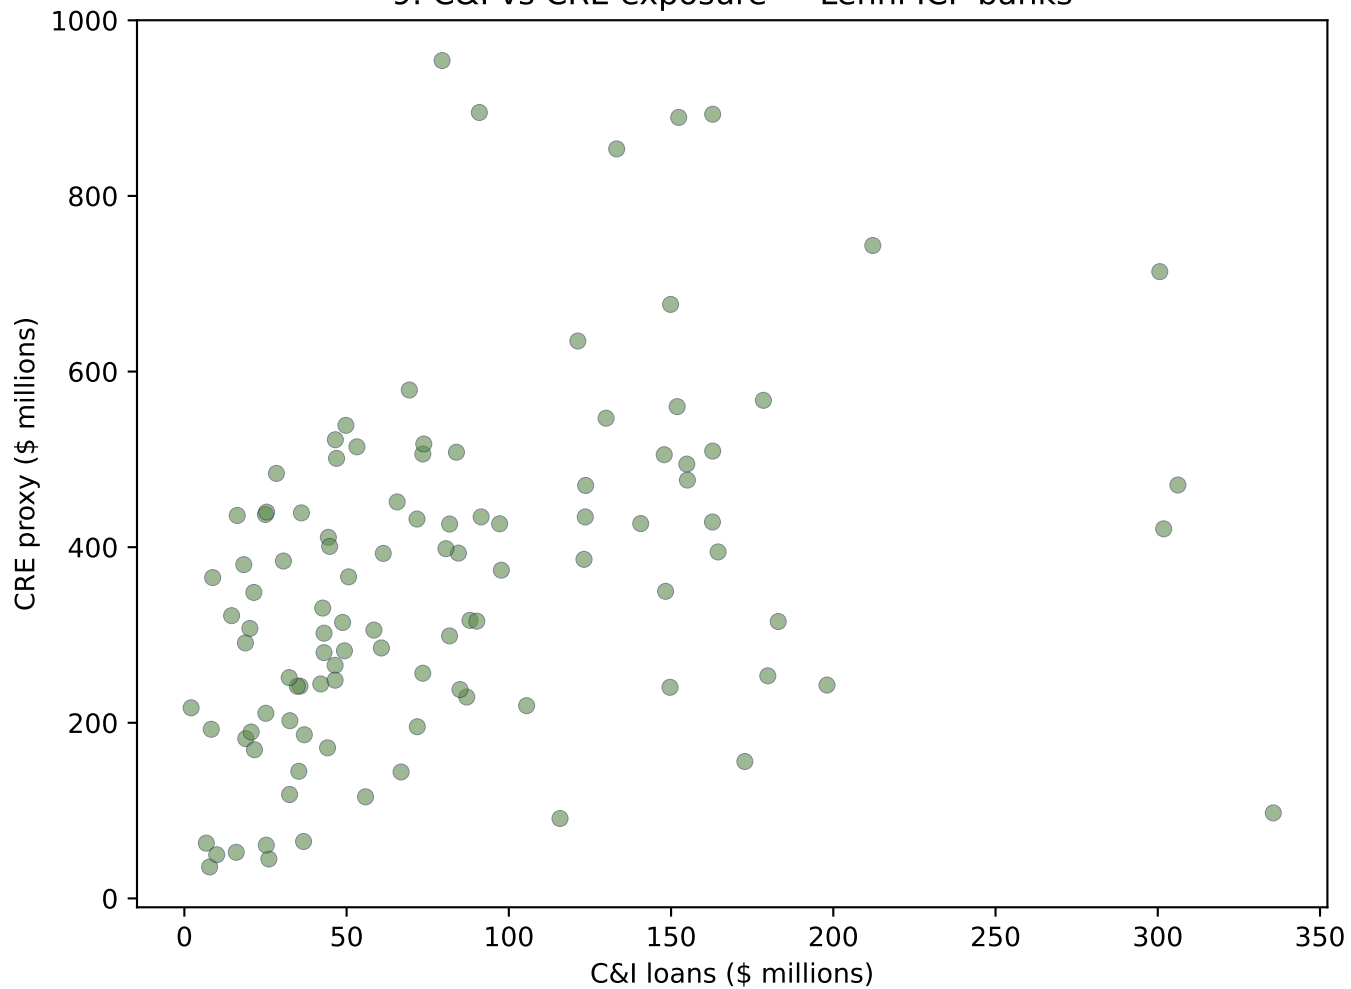

7. Texas banking trends by quarter

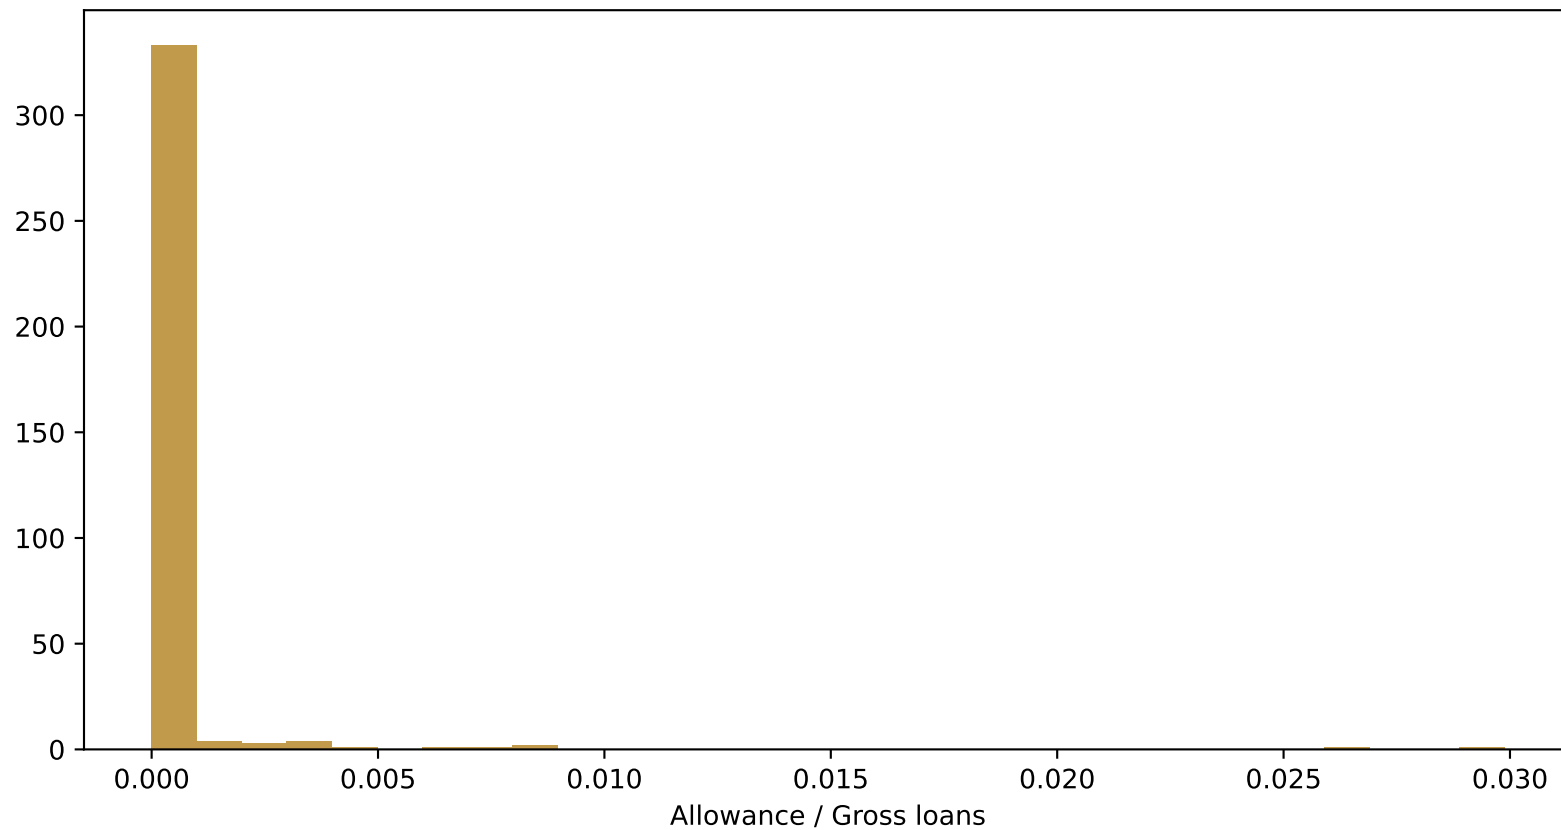

8. Top 15 Lenni ICP banks by loan portfolio

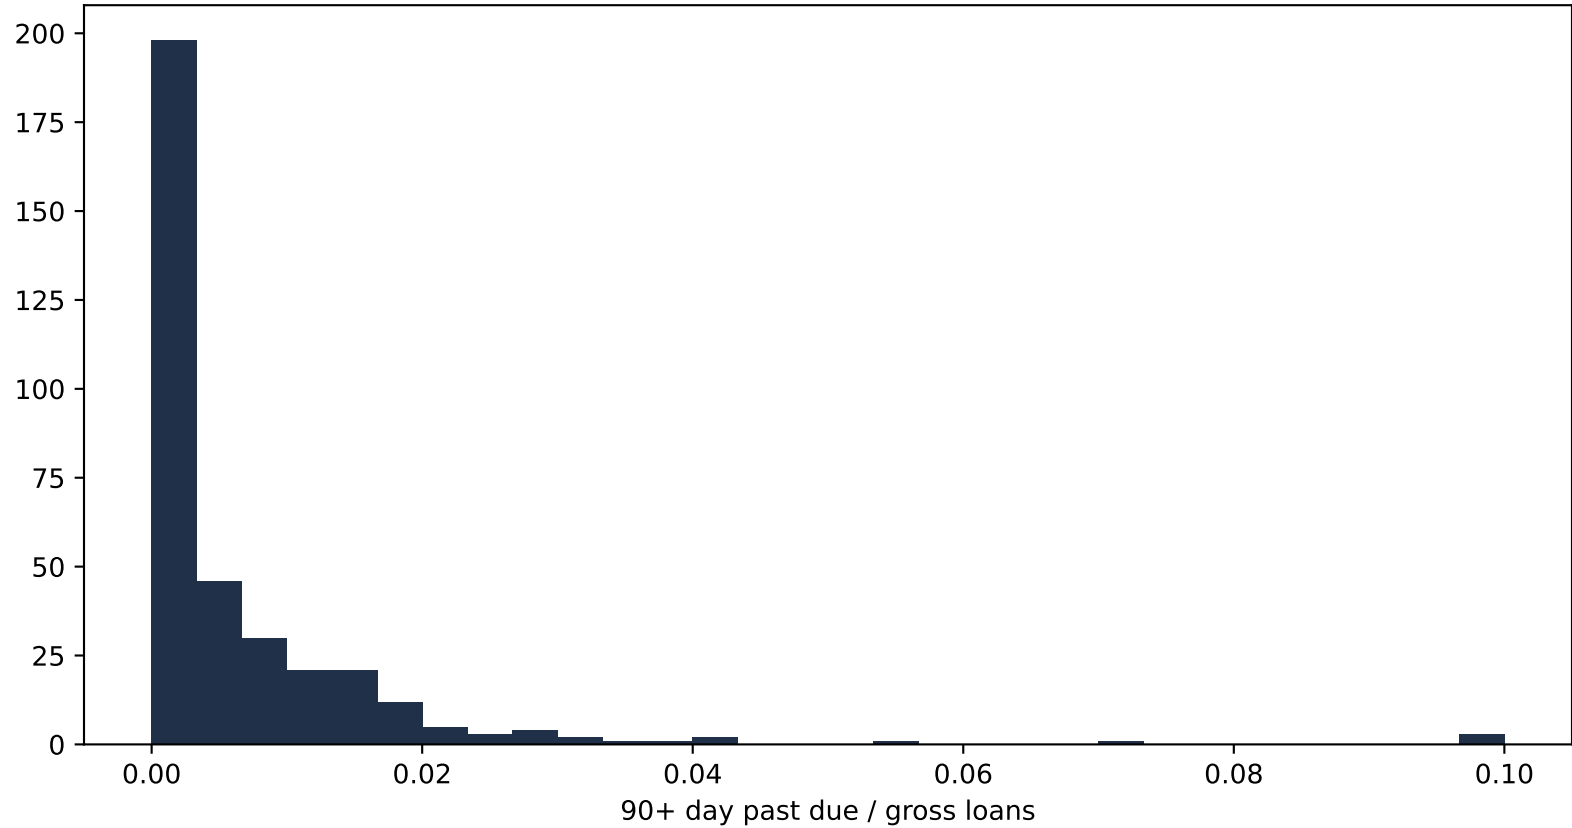

9. C&I vs CRE exposure — Lenni ICP banks

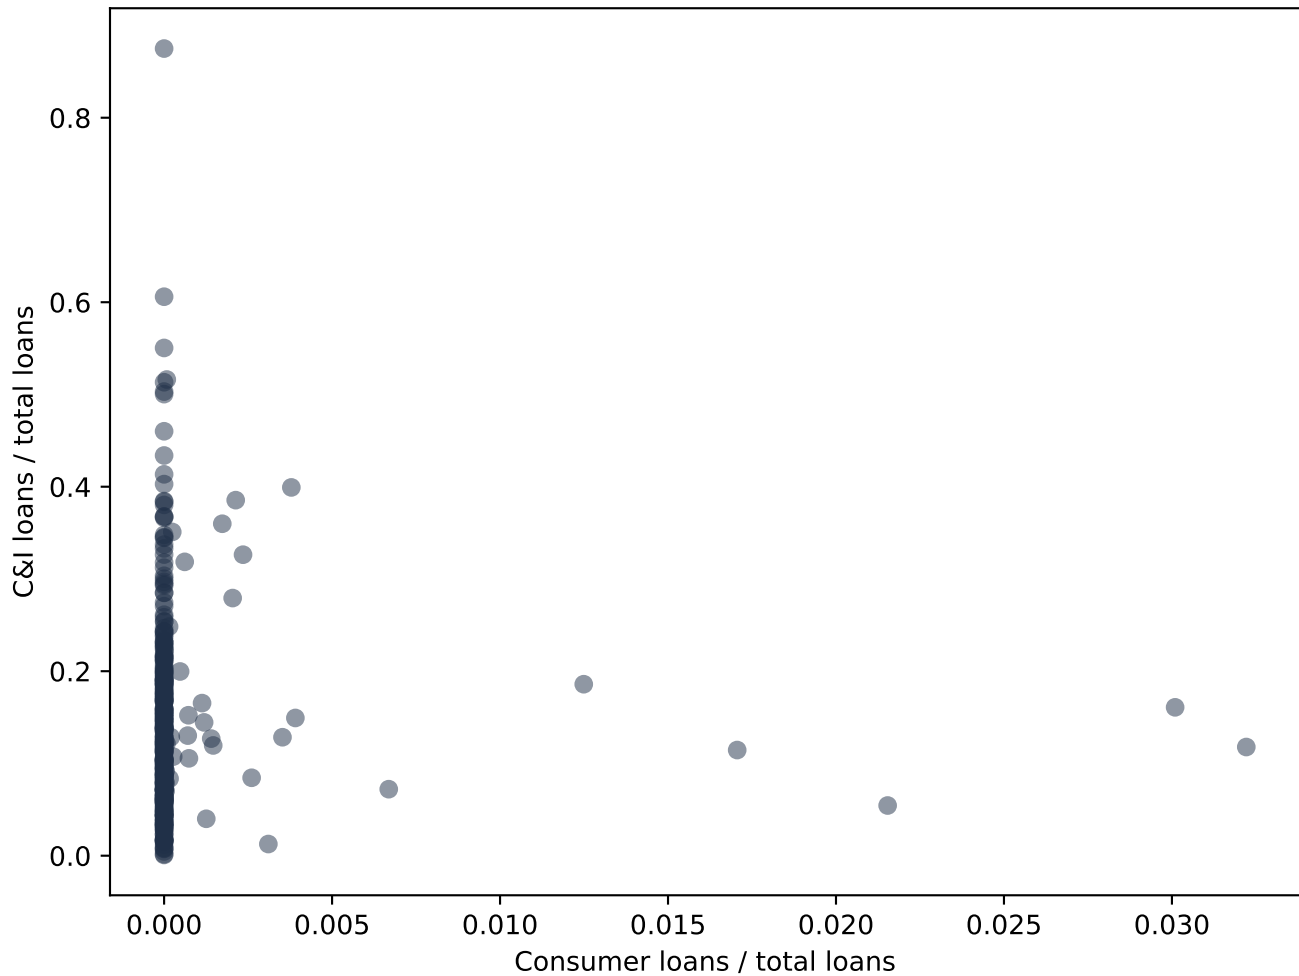

10. Allowance for loan losses ratio

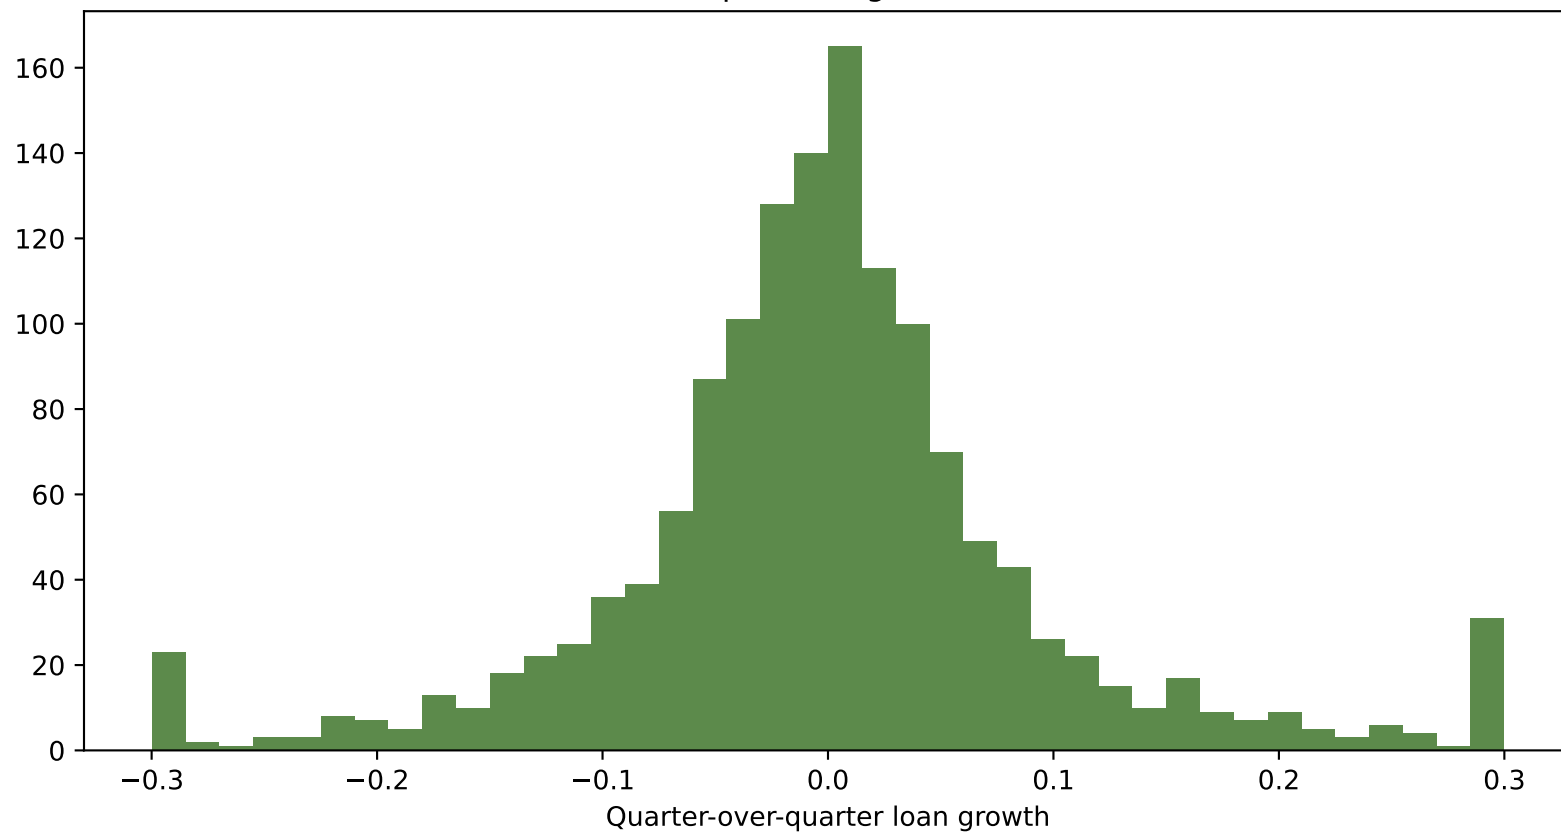

11. Credit stress proxy (90+ past due ratio)

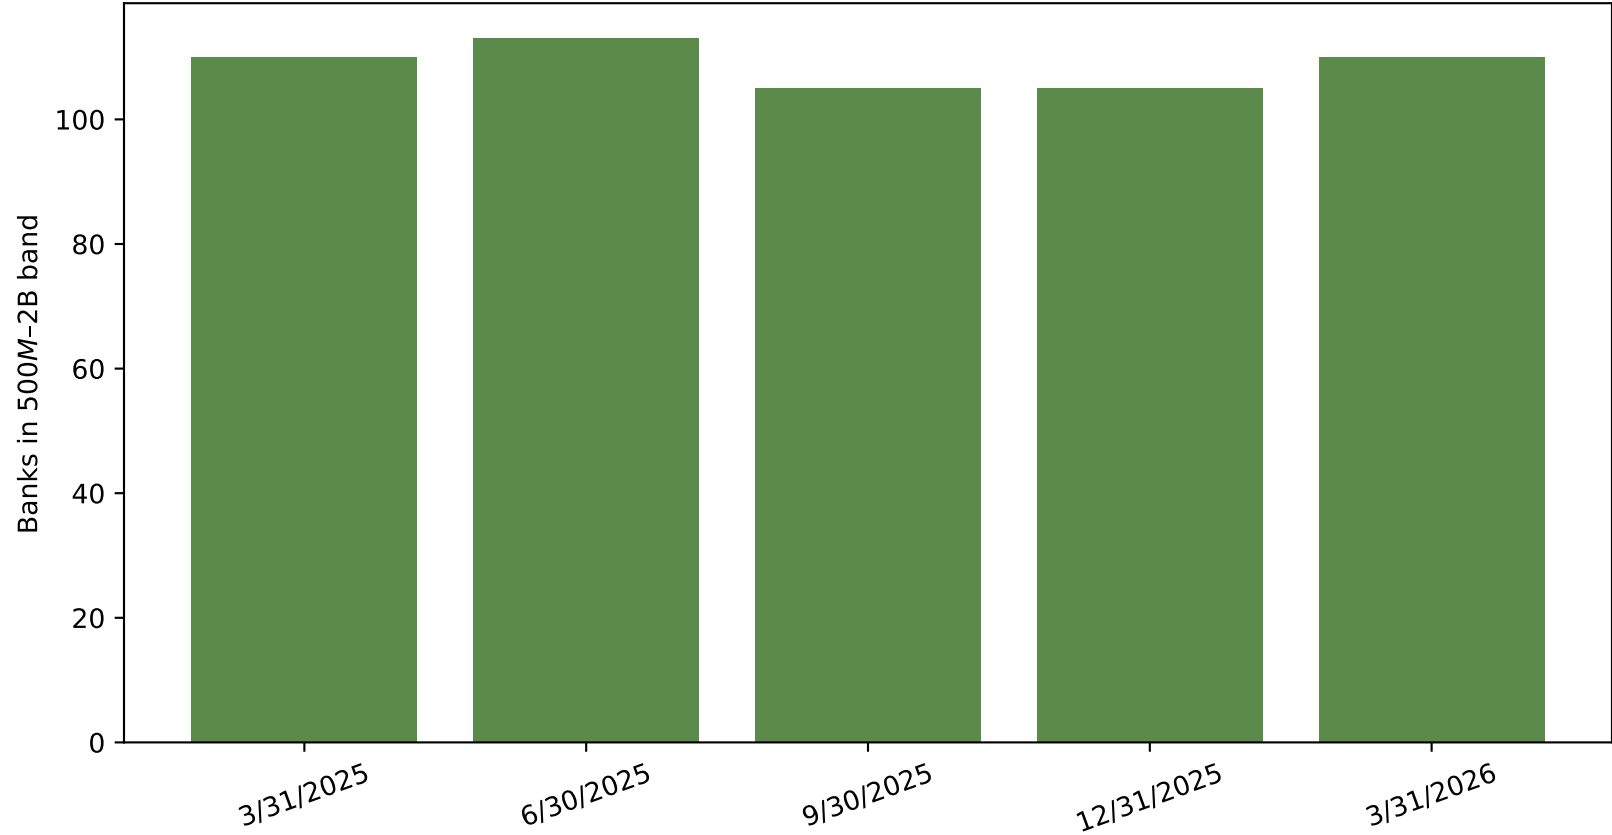

12. Bank orientation: consumer vs commercial

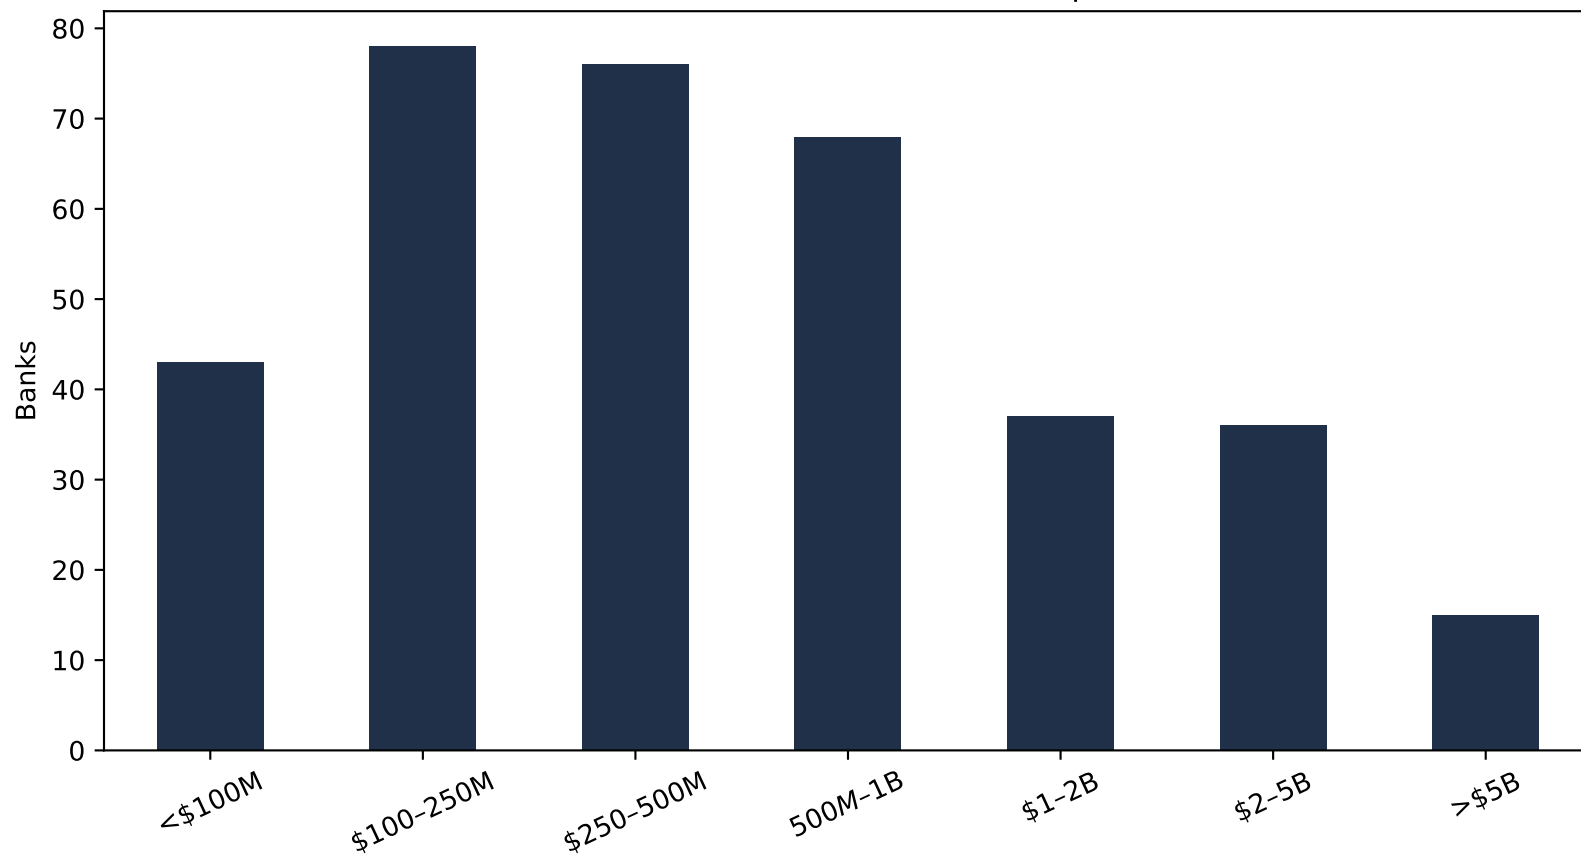

13. Loan portfolio growth (QoQ)

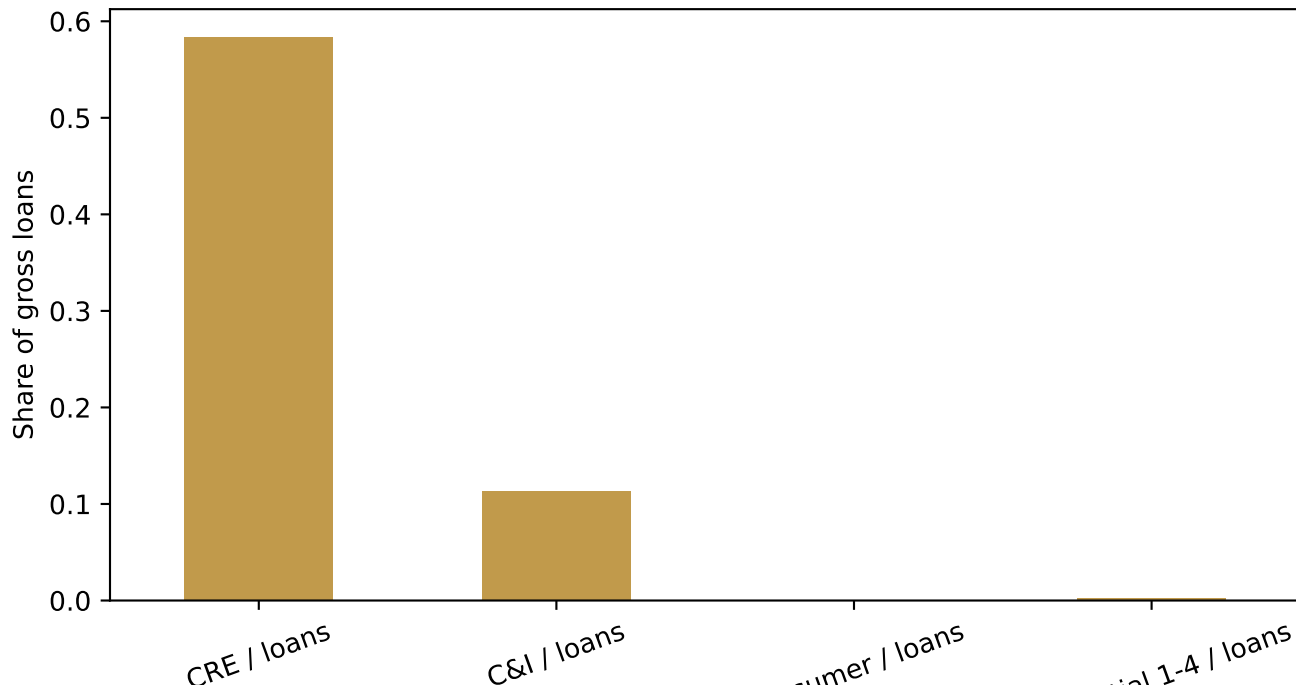

14. Lenni ICP bank count by reporting period

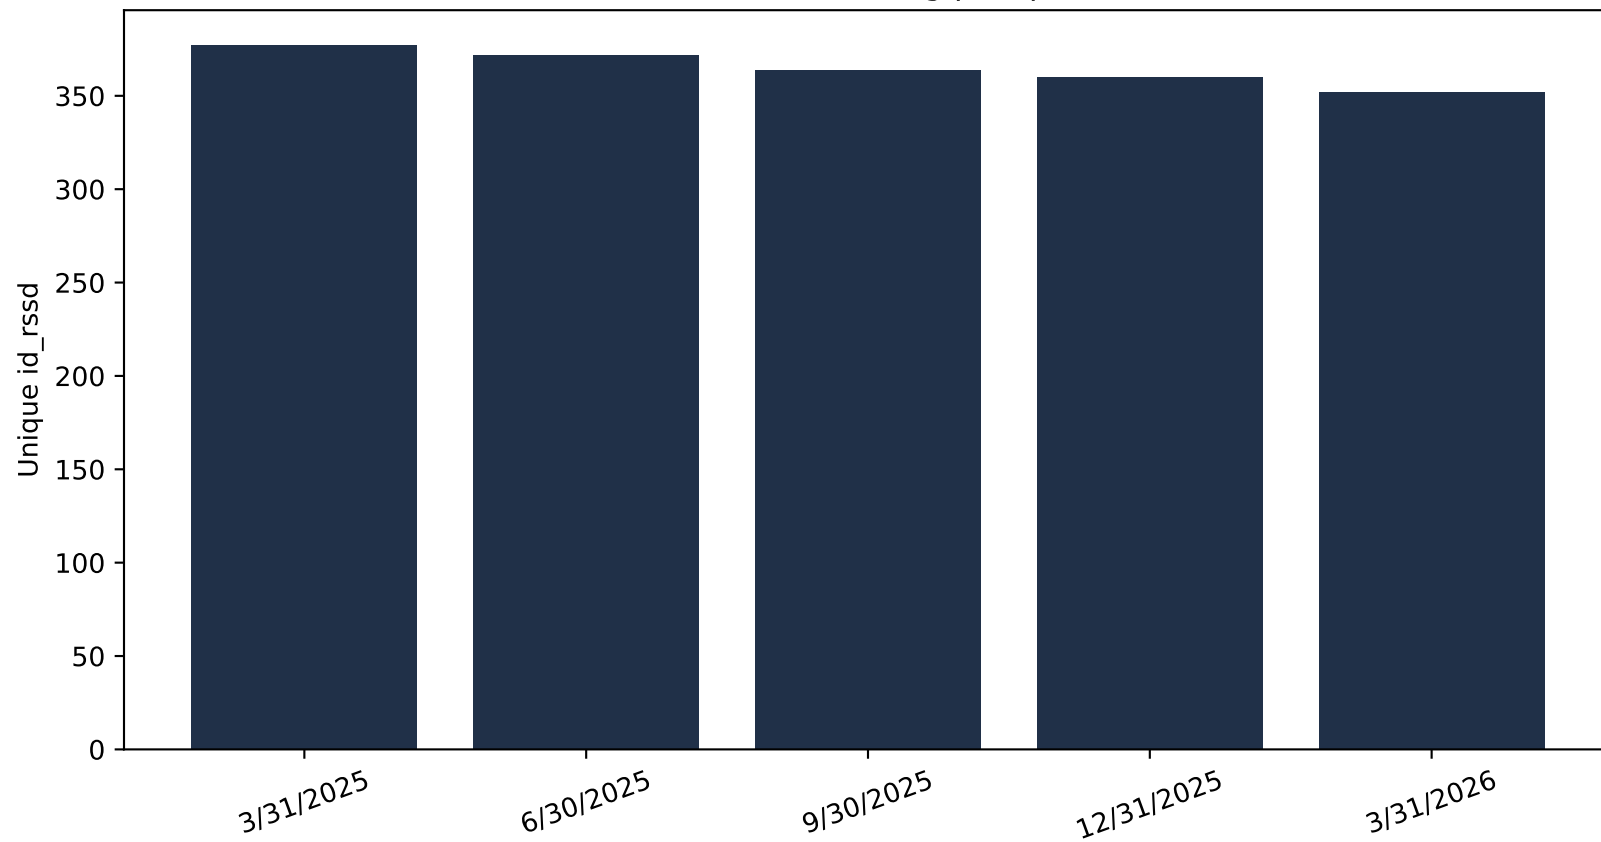

15. Asset band distribution (latest quarter)

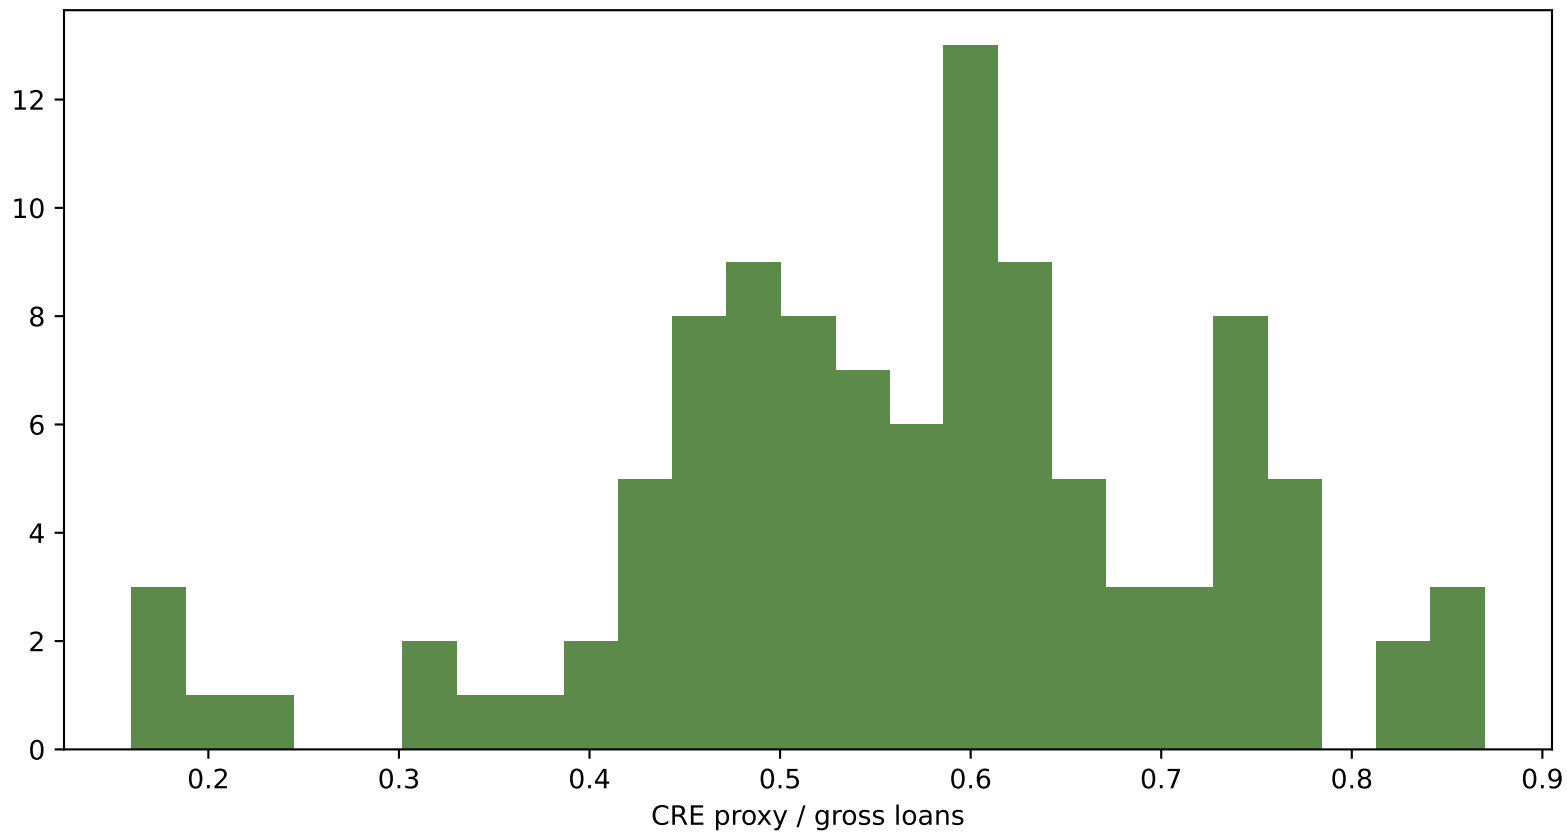

16. Median loan-mix ratios — Lenni ICP banks

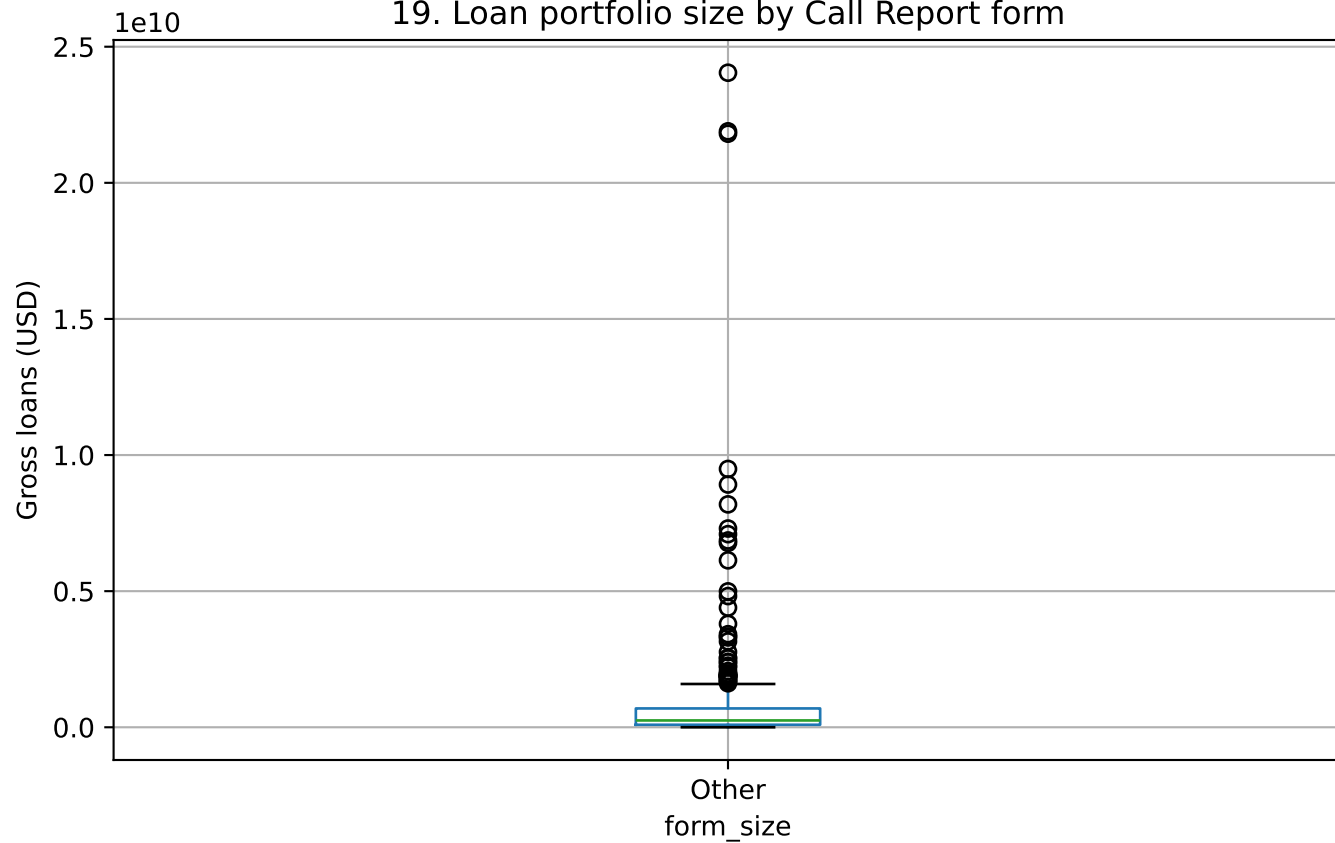

17. Texas banks filing per quarter

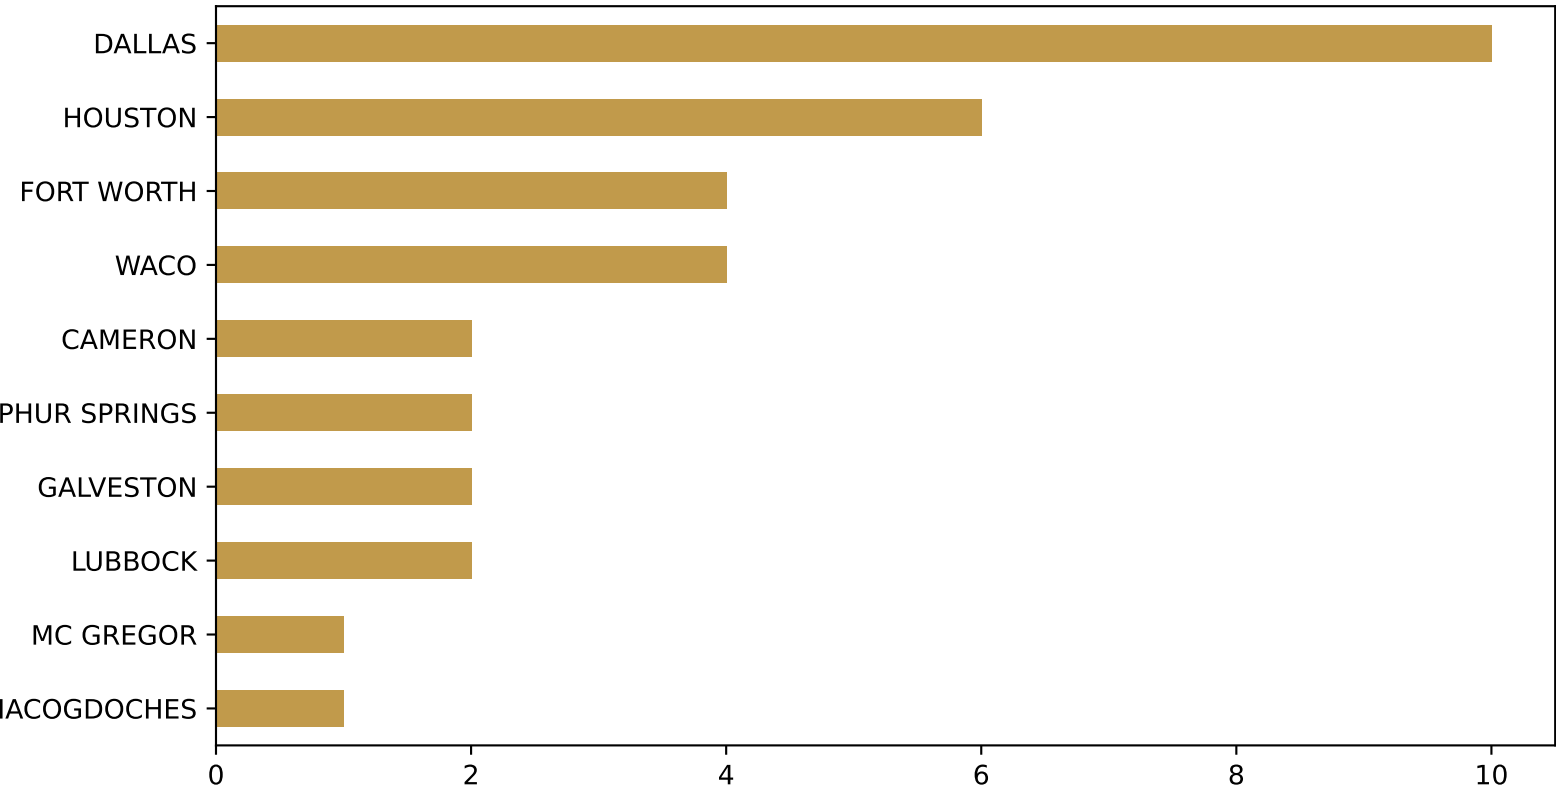

18. CRE concentration — Lenni ICP banks

19. Loan portfolio size by Call Report form

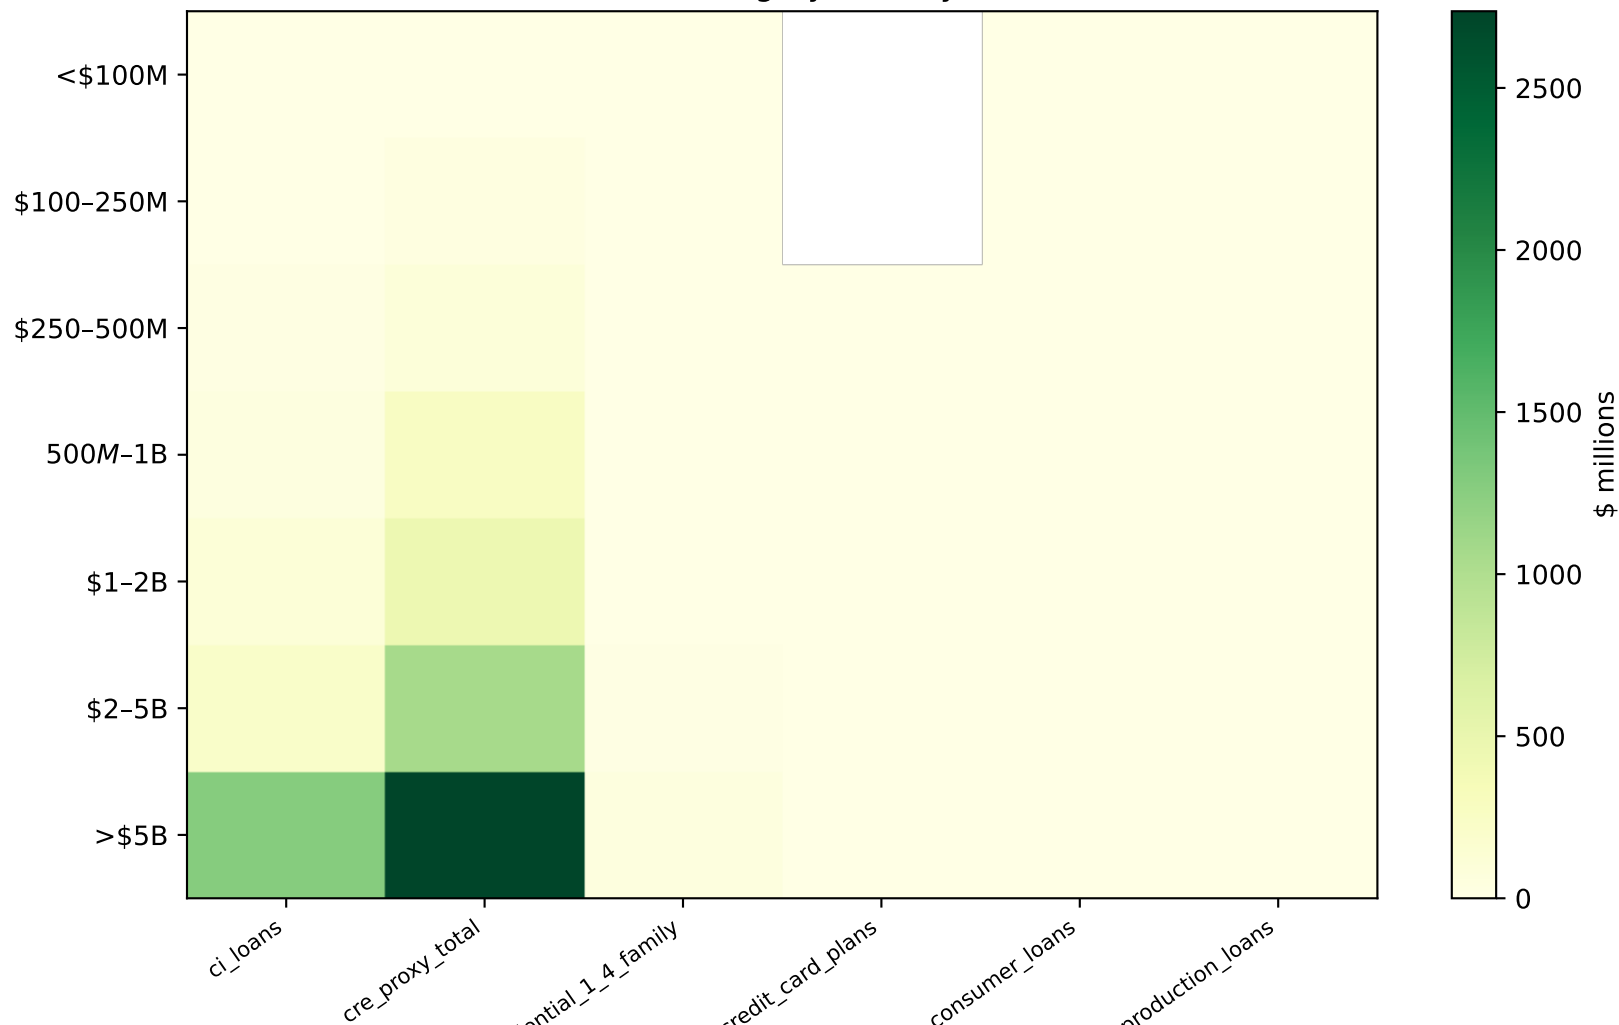

20. Top 10 cities — Lenni ICP bank count

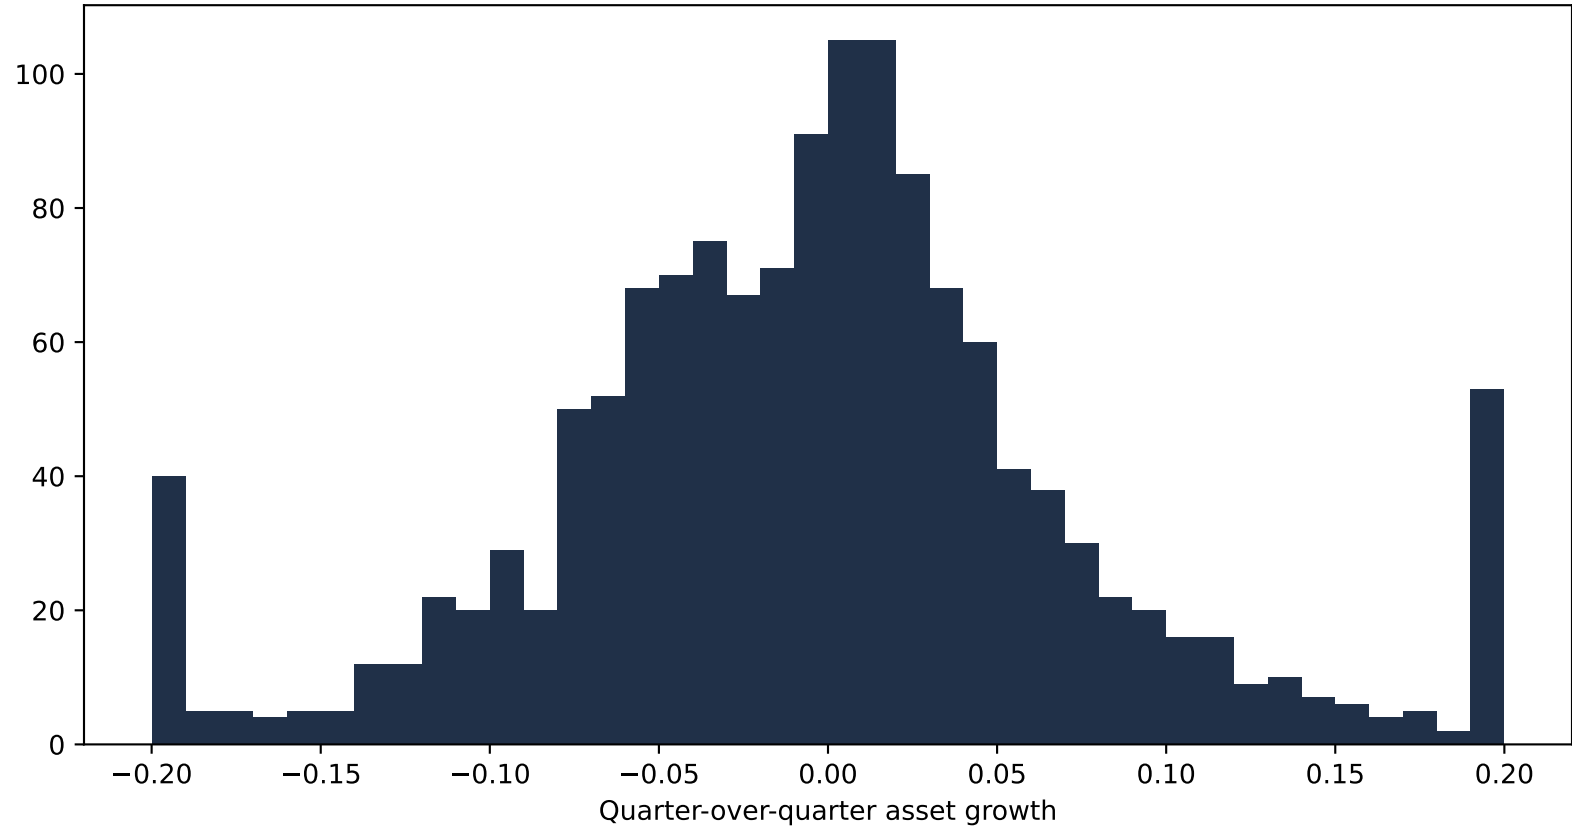

21. Summary statistics (latest quarter, all banks with assets)

	total_assets	total_loans_gross	ci_loans	cre_proxy_total	loan_to_asset_ratio
count	3.540000e+02	3.540000e+02	3.540000e+02	3.540000e+02	351.00
mean	1.413444e+09	8.771268e+08	1.595352e+08	4.263976e+08	0.59
std	4.236764e+09	2.395595e+09	6.255854e+08	9.868615e+08	0.18
min	1.775800e+07	0.000000e+00	0.000000e+00	0.000000e+00	0.06
25%	1.799845e+08	9.217600e+07	8.723500e+06	3.816575e+07	0.50
50%	4.333365e+08	2.509575e+08	2.672000e+07	1.156530e+08	0.62
75%	1.007638e+09	6.919918e+08	8.674175e+07	4.086110e+08	0.74
max	5.312780e+10	2.404456e+10	8.438975e+09	1.019620e+10	0.93

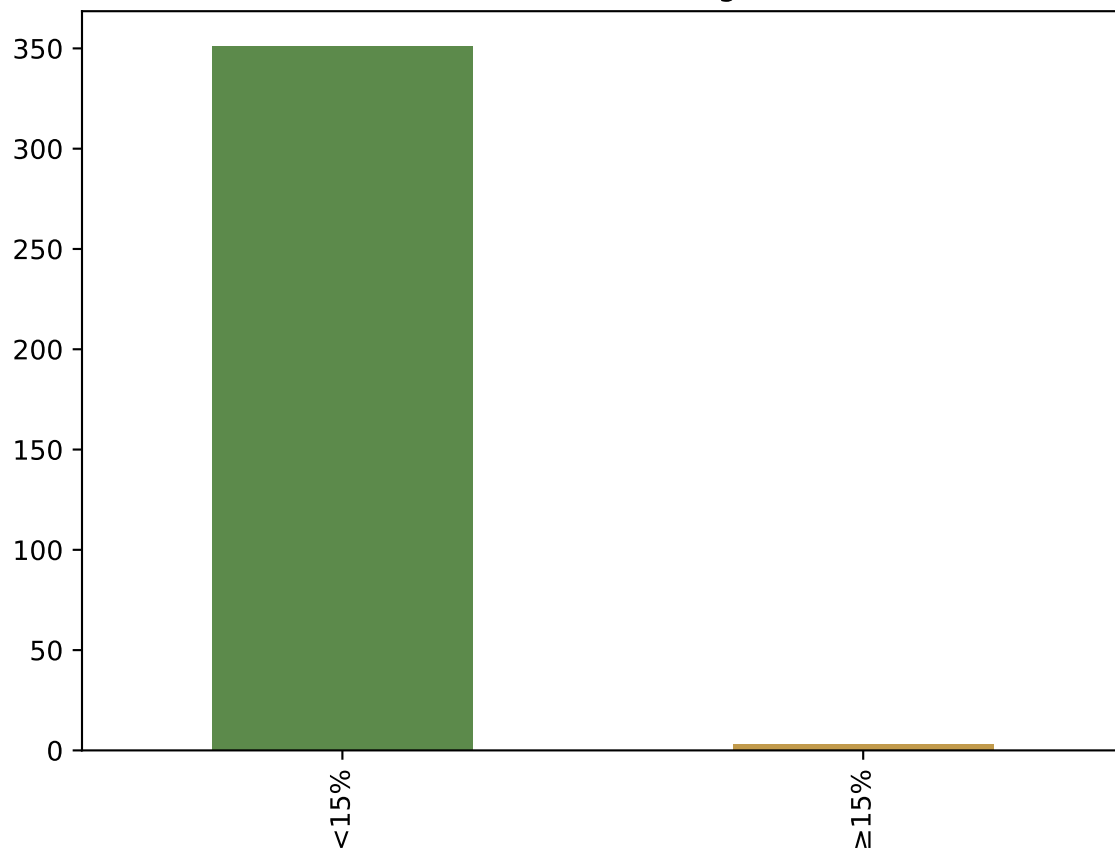

23. Median loan category (\$M) by asset band

24. Asset growth distribution (QoQ)

25. Portfolio orientation — low vs higher consumer share

Executive findings

- Texas FFIEC universe: 354 banks with asset data in latest period (12/31/2025). Master joined: 1,825 bank-quarter rows.
- Lenni ICP (500M-2B): 105 banks (29.7%) of 354. Lenni context cites ~360 TX community banks.
- ICP banks show substantial CRE/C&I portfolios – aligned with Lenni's commercial lending focus.
- Top city: DALLAS (18 banks) – relevant for one-bank-per-market.
- Exported 105 ICP banks to analysis/lenni_icp_prospect_list.csv
- 351 banks (99%) have consumer loans <15% of portfolio – Lenni's commercial/portfolio-lending sweet spot.
- Market segments:

Segment	Banks_latest
ICP (500M-2B)	105
Below \$500M	197
Above \$2B	52
Missing asset data	6

Recommendations for Lenni

1. Filter `texas_bank_profiles_latest.csv` by `icp_fit` for CLO prospect lists.
2. Use city counts for one-bank-per-market exclusivity planning.
3. Prioritize high CRE/C&I banks – portfolio lenders, not mortgage-only shops.
4. Layer digital-gap research (267/360 no online app) on top of this FFIEC core.
5. Re-run `build_lenni_eda_report.py` after each FFIEC sync.

LIMITATIONS: FFIEC has no online-application field; CRE proxy sums RC-C lines.
